

TWO COLORFUL SEEDLINGS

NOW AVAILABLE IN THUMB POTS

ZANTURANO x MORNING SUN and JANE HELTON x SELF are small seedlings that can be purchased economically and grown to maturity for beautiful additions to your collection. If you are willing to wait several years for your first orchid blooms, small seedlings are your best buy.

They are so economical you can purchase by the dozen! No two seedlings are exactly alike and by growing a dozen plants to maturity you will very likely have one or two outstanding plants in this quantity.

We highly recommend these two crosses for patient collectors who want real color!

R-1700 - BLC. ZANTURANO, var. Laburna x BLC. MORNING SUN. The empire yellow blooms of Zanturano, Laburna are of lovely form and extra-heavy texture, with petals of 6" - 6-1/2" spread; the lip is of erythrite red, moderately ruffled, with clear yellow veining within the throat. Blooms of the clear yellow Morning Sun are of heavy texture and good proportions; the lip, characteristic of Morning Sun, is of bright rose, extremely large and ruffled. . . . late fall and winter flowering.

Small, \$1.00 - Medium, \$2.00 - Large, \$3.00

R-1706 - BLC. JANE HELTON x SELF. A selfing of our outstanding Jane Helton - golden petals of A-1 form and texture, 6-1/2" in spread; large full rose lip, moderately ruffled with golden veining in the throat. . . fall and winter flowering.

Small, .80 - Medium, \$1.50 - Large, \$2.50
